

TUPEX SKY

Decorative fittings QD, QPD and IBS are derived from standard fixtures Q, QP or IBP. They have the same dimensions, mounting way and electrical equipment (used LEDs and drivers).
Due used decors is a light output of the fittings reduced by 30-50% compared with the corresponding variant with opal cover.

TUPEX SKY creates a realistic picture of the sky on a room ceiling. Combination of lighting and decorating creates a positive atmosphere in any interior. The effect of the skylight in the room creates a feeling of openness and space.
